

METHODOLOGY OVERVIEW

METHODOLOGY ASSESSMENT

CivicScience is a next-generation polling and market intelligence company. Through a proprietary, scientifically-valid, online survey methodology, we are fundamentally changing the way brands, media outlets, and investors gather and implement consumer research. Our methodology and data quality have been extensively tested and validated by leading experts in academia, industry, and economics. For a detailed overview of our methodology, please review our official whitepaper: [Assessing the Research Methodology, Validity, and Representativeness of CivicScience Survey Data](#).

ACADEMIC, INDUSTRY, AND PEER-REVIEWED PAPERS

External validation and independent research using our data have appeared in numerous academic, industry, and peer-reviewed publications, including:

1. Joel Rubinson, President, Rubinson Partners, Inc.: [Assessing the Validity of CivicScience Data](#)
2. Research Paper by Lamar Pierce (Washington University) , Todd Rogers (Harvard Kennedy School), and Jason A. Snyder (UCLA): [The Intense Hedonic Consequences of Partisan Identity](#)
